Summary

Flutter developer with 1 year of industry experience shipping production Android and iOS apps across healthcare, food delivery, education, and e-commerce, with clean architecture, reliable API integration, and release-ready builds.

Experience

ResilienceSoft *1 Year*
Junior Flutter Developer *Bilaspur, Chhattisgarh*

- Developed and shipped multiple production Flutter apps for Android and iOS across healthcare, food delivery, education, and e-commerce, owning features from UI to release.
- Applied GetX, BLoC, and Riverpod for state management and built structured REST API layers with consistent authentication, error handling, and offline caching.
- Integrated third-party services including payments, authentication, maps, push notifications, and install-attribution analytics across multiple products.
- Prepared release builds for both platforms and worked with the team on bug fixes after launch.

Projects

Clinic Management Suite — Receptionist & Doctor Apps *Doctor App — Receptionist App*
GetX · REST APIs · SignalR · PDF/Printing

- Designed a two-app workflow: the receptionist registers patients and creates appointments, which are assigned to a doctor and appear on the doctor app in real time.
- Let doctors prescribe medicines digitally, with PDF prescriptions/reports, thermal/USB printing, and dashboard charts for appointment activity.

Tiffin Mitra — Tiffin Subscription App *Play Store*
Flutter · Mapbox · Firebase · AppsFlyer

- Built a subscription-based tiffin ordering app with Mapbox location, OTP login with SMS autofill, and push notifications.
- Integrated AppsFlyer attribution to track installs and key user events for marketing.

Sharp Quiz — Quiz Platform *Play Store*
BLoC · REST APIs · Firebase Auth · Hive · Razorpay

- Built a quiz platform on REST APIs with Google sign-in (Firebase Auth) and Hive caching for offline use.
- Added monetization through Razorpay, in-app purchases, and ads, plus OCR and PDF features.

Meat Wala — Online Meat Ordering *Play Store*
Flutter · REST APIs · Razorpay

- Built an ordering and delivery app on REST APIs with product catalog, cart, orders, address selection, and Razorpay payments.

Technical Skills

Languages	Dart, Java, C++, JavaScript, HTML, CSS
Mobile	Flutter, GetX, Riverpod, BLoC, Provider, GoRouter, animations, localization
APIs & Realtime	REST, Dio/HTTP, JSON, SignalR, Socket.IO, WebRTC, Agora RTC
Firebase	Auth, Firestore, Realtime DB, Storage, FCM, Crashlytics, Analytics, Remote Config
Maps & Payments	Google Maps, Mapbox, Geolocator; Razorpay, Stripe, In-App Purchases, QR/Barcode
Storage & Tools	Hive, Sqflite, SharedPreferences, Secure Storage; Git, Android Studio, Shorebird
Web & Automation	HTML, CSS, JavaScript, n8n workflow automation

Education

B.Tech — Computer Science and Engineering *JK Institute of Engineering*
Bilaspur, Chhattisgarh *2022 – 2025*

Diploma in Computer Science *JK Institute of Engineering*
Score: 81% *2019 – 2021*

Matriculation *Govt Boys Hr Sec School Sarkanda*
Score: 66% *2018*
